

**Public Notice for Consideration of Approval of
Monitoring and Reporting Program No. R1-2021-0028
for the
City of Healdsburg Recycled Water Program
Sonoma County
WDID NO. 1B15092RSON**

On November 14, 2019, the City of Healdsburg (City) submitted a Recycled Water Program Technical Report and Notice of Intent (NOI) to request revision of regulatory coverage for the City's Recycled Water Program under State Water Resources Control Board Water Quality Order No. 2016-0068-DDW, *Water Reclamation Requirements for Recycled Water Use* (General Order) for expansion of its recycled water system. The November 14, 2019, NOI expands upon and supplements the NOI that was submitted by the City on May 5, 2016. The City updated the November 2019 NOI in response to comments from the State Water Board Division of Drinking Water (DDW) and Regional Water Board staff and resubmitted it on May 3, 2021, as the April 2021 NOI.

The City has been enrolled under the General Order in accordance with the NOA issued by the Regional Water Board Executive Officer on July 1, 2016. The April 2021 NOI continues all previously approved recycled water uses as well as adds several new recycled water uses. Specifically, the City's current enrollment (2016 NOI) authorizes the following recycled water uses: Residential/Commercial Landscape Irrigation Recycled Water Trucking Program; Vineyard Irrigation Program; Aggregate Processing; Construction Uses; Fire Suppression; Sanitary Sewer Cleaning; and Street Sweeping. The City is requesting to continue coverage for these uses and to obtain authorization for the following additional recycled water uses: Pasture/Cut Hay Irrigation; Orchard Irrigation; Vineyard Frost Control; Cannabis Irrigation; and Consumption of Disinfected Tertiary Recycled Water by Non-dairy Livestock.

The Regional Water Board Executive Officer proposes to issue a Notice of Applicability (NOA) to enroll the City under the General Order as specified in the April 2021 NOI. Additionally, Monitoring and Reporting Program (MRP) No. R1-2021-0028 is proposed as a condition of compliance with the General Order.

The NOA and MRP will be available for public review and comment for 14 days beginning **July 12, 2021** and ending on **July 26, 2021** on the Regional Water Board [website](https://www.waterboards.ca.gov/northcoast/public_notices/notice_of_consideration/) (https://www.waterboards.ca.gov/northcoast/public_notices/notice_of_consideration/). Written comments must be submitted to the Regional Water Board **by 5:00 p.m. on July 26, 2021**.

The Regional Water Board Executive Officer will consider issuing the NOA and MRP approving the City's enrollment under the General Order as a ministerial action after completion of this public review period for these documents.

If you have any questions, please contact staff member Cathleen Goodwin at (707) 576-2687 or by email at Cathleen.Goodwin@waterboards.ca.gov.
